

PRINTRONIX®

PrintNet™ Plus

Your Global Printing Management System

PICTURE YOUR PERFECT NETWORKED PRINTING SOLUTION...

...now let PrintNet Plus make it happen.

You have the power to:

- Control all your networked Printronix line matrix and thermal printers from a single desktop, no matter where they're located...
- Secure your printer with password protection for safe operation on any network...
- Assure consistent print job standards by defining and maintaining printer control without the intervention of local operators...
- Lock printer configurations and parameters to prevent unauthorized changes...
- Control bar code print quality on line matrix and thermal printers...
- Use MIB II protocol for all popular SNMP managers...
- Manage bar code quality through integrated verification...
- Monitor printer consumables to optimize print quality and ensure efficient operation...
- Organize your printer network graphically, using a database that you control...
- Group network printers by categories—job type, department, location and more...
- Upload, edit and download printer configurations, one at a time or in groups, in real time...
- Distribute software downloads to update selected printer groups...
- Reduce printer downtime and increase efficiency...
- Reduce IT management costs...

...what else will you do with PrintNet Plus?

Try PrintNet Plus Yourself

on the Web! PrintNet Plus is Printronix's "killer app," the product that makes IT Managers, network administrators, and executive decision makers alike sit up and take notice. That's because it leverages the full power of today's enterprise network technology to bring a new level of control and cost savings to business-critical printing. And now you can experience PrintNet Plus firsthand.

Simply visit the Printronix Web site, www.primtronix.com. Click on "PrintNet Plus," and explore the power and versatility of this extraordinary Printronix technology. Once you do, you'll never be satisfied with anything less than the complete global printing management system...from Printronix.
